OF

GENERAL INFORMATION OF THE SANKARIDRUG CIRCLE.

CHAPTER I.

DESCRIPTION.

The Sankaridrug circle originally formed part of the Salem circle. In 1895, when the tree-tax system was extended throughout the Salem district, it was divided into Namakkal, Salem and Hosur circles. This arrangement was subsequently found unsatisfactory, owing mainly to the want of easy communications. The district was then redistributed into Salem and Hosur circles (G.O. Mis. No. 2465, Revenue, dated 7th June 1898), with an additional Assistant Inspector for each circle. This continued until 1914 when the Board realized the undesirability of having divided responsibility between the Inspector and the Assistant Inspector in Preventive circles and recommended to Government the reconstitution of Salem and Hosur circles into three circles under Inspectors only. With the retransfer of the Namakkal taluk to Salem district (G.O. No. 641, Revenue, dated 14th February 1918), the redistribution of the taluks of the district into three circles was rendered easier, and the present Sankaridrug circle was formed on 1st April 1918, constituting Omalur, Tiruchengodu and Namakkal taluks under the sanction conveyed in G.O. No. 665, Financial, dated 10th July 1917. Date of formation of the circle

Extent of the circle.

2. The area of the circle is 1,713·37 square miles. It is made up as follows :—

	Sq. miles.
Omalur taluk	405·75
Tiruchengodu taluk	616·00
Namakkal taluk	691·62
Total ...	1,713 37

3. The circle is bounded on the north by Dharmapuri taluk, east by Salem taluk, south by Trichinopoly district and on the west by Coimbatore district divided by the Cauvery river. Boundaries.

Population.

4. The circle contains a population of 760,441 as per census of 1911. The details are as shown below:—

Omalur taluk	153,857
Tiruchengodu taluk	295,251
Namakkal taluk	311,333
Total ...	760,441

The total population of the circle as per census of 1911 is furnished below rangewar:—

No.		Name of range.	Population.
A	...	Omalur	86,798
B	...	Taramangalam	67,059
C	...	Yedappadi	91,582
D	...	Sankaridrug	73,498
E	...	Tiruchengodu	78,362
F	...	Mallasamudram	51,809
G	...	Paramathi	86,953
H	...	Erumapatti	86,084
I	...	Sendamangalam	52,602
J	...	Namakkal	85,694
		Total ...	760,441

The population consists mostly of the agricultural and working classes. They are rather backward in education but generally law abiding. Grave and deliberate offences against the abkāri laws such as illicit distillation and cognate offences are however quite common in this circle. The agricultural and working classes generally patronize the liquor shops. So also the weavers of whom there are large numbers in different parts of the circle.

5. The circle is under the sole charge of one Inspector with ten Sub-Inspectors under him. The menial establishment consists of 54 peons. The office is manned by three clerks. The subjoined statement shows the establishment of the circle :— Circle establishment.

7. There are two First-class Magistrates and five Second-class Magistrates exercising jurisdiction over the area comprised within the circle; their respective jurisdictions are as shown below :— Magisterial and revenue jurisdictions.

(1) Land Revenue Divisional Officer, Sankaridrug, First-class Magistrate, Omalur and Tiruchengodu taluks.

(2) Land Revenue Divisional Officer, Namakkal, First-class Magistrate, Namakkal and Rasipuram taluks. The latter taluk belongs to Salem circle.

(3) Second-class Magistrate, Omalur, Omalur taluk.

(4) Second-class Magistrate, Sankaridrug, Tiruchengodu taluk.

(5) Second-class Magistrate, Tiruchengodu, Tiruchengodu taluk.

(6) Second-class Magistrate, Namakkal, Namakkal taluk.

(7) Second-class Magistrate, Paramathi, Namakkal taluk.

Note.—Nos. (4) and (7) are also Deputy Tahsildars while (3), (5) and (6) are Stationary Sub-Magistrates.

Number of villages in the circle.

8. There are 438 villages comprised in the circle as per particulars shown in the subjoined statement :—

Number and name of taluk.	Class of villages.		Total.
	Government.	Mitta and inam.	
1. Omalur	109	22	131
2. Tiruchengodu	114	41	155
3. Namakkal	60	92	152
Tota ...	283	155	438

9. The country is here and there hilly but not extensively so. The Madras-Calicut main line runs through the eastern portion of Omalur and Tiruchengodu taluks and the stations of Lokur, Kadayampatti, Dinnappatti, MacDonald's choultry, Sankaridrug, Anangur and Cauvery in order are within the limits of this circle with the exception of Salem and Ariyanur stations which are within the limits of Salem circle. The Namakkal taluk is devoid of railway service. But the Erode-Trichinopoly line which runs parallel to the Cauvery affords easy access to railway communication. The river is crossed by means of ferries. Country and communications.

Omalur taluk.—The circle has some fairly good roads throughout its length and breadth. The Madras-Calicut road enters the circle at Thoppur, passes through Omalur, Taramangalam and Sankaridrug quitting the circle at Komarapalaiyam bridge opposite Bhavani at 246th mile.

(ii) Besides the Madras trunk road there are other branch roads in Omalur taluk, viz., (1) Omalur to Salem, (2) Omalur to Mecheri, (3) Taramangalam to Nangavalli, (4) Nangavalli to Jalakantapuram, (5) Jalakantapuram to Pappampadi, (6) Taramangalam to Jalankantapuram, and (7) Taramangalam to Pappambadi.

Tiruchengodu taluk.—In this taluk besides the Madras trunk road there are other branch roads—(1) Yedappadi to Tiruchengodu via Sankaridrug, (2) Tiruchengodu to Rasipuram, (3) Tiruchengodu to Namakkal, (4) Tiruchengodu to Paramathi, and (5) Tiruchengodu to Salem.

Namakkal taluk.—This taluk also is traversed by good roads. Namakkal is connected with important centres of the taluk by good metalled roads:—(1) Namakkal to Paramathi, (2) Namakkal to Mohanur and (3) Namakkal to Erumapatti. Besides these there are the Salem-Trichinopoly road which passes through Namakkal and the road connecting Namakkal with Tiruchengodu.

Rivers.

10. There are three rivers of minor importance in the circle—(1) The Thoppur river otherwise known as Veppadiyar joins the Cauvery at Sholappadi, (2) the Sarabanga Nadi, formed by the minor of two streams at Omalur, empties itself into the Cauvery at Kaveripatti, and (3) the Tirumanimuthar joins the Cauvery at Kuduthurai in Namakkal taluk.

11. Water-supply is generally inadequate in this circle except that portion of the Namakkal taluk which is on the bank of the Cauvery. Owing to scarcity of water in summer the people draw water from dirty and stagnant pools for bathing and drinking purposes. The result is that people suffer from "Guinea worm" in Tiruchengodu taluk. Water-supply.

Climate.

12. The climate of the circle is generally healthy. But smallpox, fevers, cholera and plague are prevalent in parts. Sankaridrug, the head-quarters of the circle, is considered as one of the sanitaria of the district.

Nature of soil and cultivation.

13. The district is entirely dry and paddy cultivation is therefore rare. Cultivation of cereals is common. Ragi, cholam and cumbu are the chief food-grains which are cultivated on a large scale.

Arts, industries and commerce.

14. By far the most important industry in the three taluks of this circle is weaving. The chief centres are Omalur, Taramangalam, and Jalakantapuram in Omalur taluk, Tiruchengodu, Yedappadi, Komarapalaiyam, Mallasamudram and Dadapuram in Tiruchengodu taluk, Velur, Pandamangalam, Vadakarai, Attur West and Maniyanur of Namakkal taluk. In the villages of Mecheri, Aranganur, Enadi, Kangupatti, Periyasoragai and Chinnasoragai of Omalur taluk steatite is being quarried and vessels of different descriptions and sizes are made and sent to Tanjore district and elsewhere. In Muttunayakanpatti brass vessels are manufactured. The manufacture of palmyra jaggery is the commonest industry in all the taluks of this circle. In Tiruchengodu taluk the preparation of palmyra fibre and castor-oil is carried out and saltpetre is manufactured in Yedappadi. In Namakkal taluk cotton, plantains and betel leaves are cultivated on an extensive scale and exported to remote parts of India. Bamboo mats are made at Vedakkaram and grass mats at Erayamangalam. Kunjampalaiyam is noted for its mica mines. Markets are held all over the taluks of this circle. The villages wherein shandies are held are given under the different ranges.

Excise Advisory Committees.

Under the powers delegated to the Collector of the district in G.O. No. 60, Revenue, dated 8th January 1919, the Collector of Salem, in his Circular No. 1250/H.C., has constituted two Excise Union Advisory Committees, one at Sankaridrug and the other at Sendamangalam of this circle. The constitution of the two committees is as follows:—

Sankaridrug Union Advisory Committee.

(*a*) Deputy Tahsildar of Sankari, President.
(*b*) The Union Chairman, Sankari.
(*c*) The Abkāri Inspector (Assistant Inspector), Sankaridrug circle.
(*d*) Two non-official members of the Union Panchayat elected by that body.
(*e*) The Police member nominated by the District Superintendent of Police.

Sendamangalam Union Advisory Committees.

(*a*) Tahsildar of Namakkal, President.
(*b*) The Union Chairman, Sendamangalam.
(*c*) The Abkāri Inspector, Sankaridrug circle.
(*d*) Two non-official members of the Union Panchayat elected by that body.
(*e*) The Police member nominated by the District Superintendent of Police.

The Presidents of the committees should arrange for early appointment of the committees. The President should convene formal meetings early in September and March every year to determine questions relating to the number and location of arrack and toddy shops, respectively, for the succeeding leases. The committee should strictly adhere to the instructions contained in Standing Order No. 46 of the Excise Manual as recently amended by Correction Slip No. 801.

CHAPTER II.

PREVENTIVE RANGES.

A.—Omalur Range.

This range is about 150 square miles in extent and contains 88 villages, of which 67 are Government and 21 mitta, with a population of 86,798 as per census of 1911. It is bounded on the north by Dharmapuri taluk, on the east by Uttankarai and Salem taluks, on the south by Salem taluk and on the west by Taramangalam range and Coimbatore district. The range has 15 arrack shops, 20 toddy shops and 1 arrack whole-sale depot at Mecheri. The numbers of cocoanut and palmyra trees marked annually in the range are, on an average, 4,207 and 262, respectively. Sweet toddy industry is carried on to some extent in this range in Mallikundam, Karuppur, Mecheri, Sathappadi and other villages. Description.

The establishment of the range consists of 1 Sub-Inspector and 4 peons (2—2). Establishment.

There are Police stations at Omalur, Mecheri and an outpost at Devatipatti. Police station

2. Edangansalai.
3. Komaramangalam.
4. Vellari Valli.
5. Unjani.

Saltpetre.

Saltpetre is manufactured both in its crude and refined form within the circle. There are about 33-A factories licences issued for the manufacture of crude saltpetre on an average per year in the villages of Tiruchengodu and Namakkal taluks, where there are some saline soils suitable for this purpose. These supply saltpetre in its crude form for the manufacture and refining of saltpetre to the three refineries at Mohanur in the Erumapatti range, and at Namakkal in the Namakkal range. Each of these refineries is in charge of an amin. The output of refined saltpetre from these refineries is 600 maunds on the average per year. Two sorts of refined saltpetre are manufactured. The first is of a superior quality and the crystals are big. It is produced at a cost of about Rs. 15 per maund and sold at prices varying from Rs. 16 to Rs. 18. The second sort is of smaller crystals and costs about Rs. 12 per maund for its production and is sold at Rs. 12-8-0 to. Rs. 14 per maund.

Salt is supplied both from Madras depot and Tuticorin factories. Salt supply and trade.

The supply of toddy is quite adequate in this circle. Coconuts and palmyras are the palms tapped. Date palm is quite unknown. The numbers annually marked are on an average 33,881 coconut and 2,616 palmyra trees. Coconut trees are tapped only once a day. Palmyra trees are tapped twice a day in some parts of the circle. Coconut toddy is appreciated more by the drinking classes, though it costs more. The tapping classes are generally poor and only a few of them take up shops and work independently. Most of the shops are taken by the Gavandans of this district, who wield much influence with the tapping classes. The manufacture of palmyra toddy is carried on on a very large scale in this circle. Manufacture of sweet juice also is carried on on a large scale. The juice is mostly converted into jaggery. Illicit manufacture of fermented toddy under the guise of sweet juice is freely resorted to in spite of the large number of cases detected by the preventive staff and deterrent punishments inflicted by the magistracy. Toddy is generally transported by headloads where the topes are near the shops and the transporter is paid either by daily or monthly wages. Where the shops are at a distance, transport is by means of carts. The wages of a tapper generally vary from Rs. 12 to Rs. 15 per mensem. The shopkeeper enters into an agreement directly with tree-owners for the leasing of trees. The usual fee charged by tree owners varies from Rs. 1½ to Rs. 3 per coconut tree and 6 annas to 8 annas per palmyra tree. Very rigorous attempts are taken to put down Ivegi sales known as Santhukadai in this circle. Under this system the tapper enters into an understanding with the renter who allows him to apply for trees in his (renter's) name and on behalf of his shop but instead of taking the toddy down to shop allows its sale at treefoot or some other unlicensed place selected by the tapper.
